- **Sort** search results to determine appropriateness (by relevance, date, reading level, and more)
- **Create** relevant, appropriate instructional material quickly using BookCarts and QuizCarts
- **Go** "To the best part" to find the most relevant portion of an article

eLibrary – the affordable and user friendly general reference tool – is the perfect resource for delivering full-text and multimedia reference essentials.

Students find the answers they need from more than 2,500 full-text magazines, newspapers, books, and transcripts--plus thousands of maps, pictures, educator-approved websites from Homework Central[®], and top-quality multimedia (audio/video) files.

Users can sort their results by relevance, date, file size, Lexile or reading level, publication, and source, while librarians and educators can find content that's directly linked to state and national teaching standards.

The one-of-a-kind BookCart functionality allows librarians and educators to build persistent links to pre-selected content, creating reading lists, subject and topic pages, standards-linked lessons and activities, community interest pages, and even pre- or post-assessments.

State and national standards search locates standards – aligned resources, which cuts lesson-planning time and ensures that library resources correlate directly to learning benchmarks.

Topic search locates resources indexed to more than 18,000 topics relevant to K-12 curricula and interests. Common topic results, find more documents like this, and search within a top features quickly guide users to the more relevant resources

Reference search gives students the basic subject information they need to start the research process using hundreds of e-books.

BookCarts and QuizCarts allow educators to create student activities, study units, tests and more. Plus, more than 600 prebuilt BookCarts help educators immediately integrate eLibrary into the classroom.

Questions to Ask Before Investing:

How often are your students relying on unfiltered dubious information from search engines?

How many hours are teachers spending searching for good instructional content on the web?

How much would it cost to purchase all of eLibrary's resources individually?
