

Great news! We now have access to SIRS Discoverer.

Take one look and you'll understand -- ProQuest designed it with beginner researchers in mind. The colorful interface is intuitive and easy-to-use for even the youngest children who are developing their initial research, writing, language, and computer skills.

Students in grades 1-9 love the colorful buttons and simple navigation system. But Discoverer is much more than a user-friendly interface. Once students click on the main search page, the real genius of Discoverer becomes apparent.

There are articles and graphics from more than 1,600 U.S. and international magazines, newspapers, websites, and U.S. government documents — all carefully selected for their educational content, interest appropriateness, and level of readability.

How will this new service help?

- Gives us access to hand-picked content from 1,600 U.S. and international magazines, newspapers, websites, and U.S. government documents.
- Tap into integrated activities, biographies, fiction, and pictures, plus a dictionary and thesaurus.
- Students in grades 1-9 will find everything they need to complete assignments and research, including: Almanacs, Encyclopedias, Country Facts, Suggested Research Topics, Discoverer's Top Pick, Monthly Spotlights & Challenge Quests, plus Current Events.
- Discoverer WebFind complements Discoverer with more than 5,000 prescreened weblinks to the latest information on varied topic areas and ever-changing fields.
