Great news! We now have access to SIRS Interactive Citizenship, part of the SIRS Knowledge Source suite of teaching and learning tools.

SIRS Interactive Citizenship contains three award-winning interactive content sets: *What Citizens Need to Know About Economics*, *What Citizens Need to Know About Government*, and *What Citizens Need to Know About World Affairs*.

In-depth chapter essays provide necessary background context and concepts. However, the solution doesn't rely on these titles alone. Links to current related articles, primary source documents, and websites make this an unparalleled educational resource that emphasizes reading, writing, and critical thinking skills drawing on the very latest information. The chapters and resources are thoughtfully integrated: the learning resources deepen the user's understanding of the chapters and the chapters provide a context for appreciating the resources.

SIRS Interactive Citizenship includes:

- National, State, and Advanced Placement Standards Guides provide direct correlations by chapter and standard statement.
- Inquiry and Discovery Forms are available in each chapter. This standard set of resources includes Understanding Basic Knowledge, Problem Solving, Map Skills, and Analyzing Graphs and Charts.
- Library, classroom, and home access extends use to anytime, anywhere.
