HNP Traditional Version – Search Tips

New Indexed Fields: Column, Dateline, Page

Search Methods

- Basic – Find articles based on keywords in the citation and article text. Also limit by newspaper and date. Additional tools located in More Search Options.
- Advanced – Find articles by searching specific fields, including: *citation and article text*, *citation and abstract* (equivalent to headline and lead paragraph), *article title*, *article text*, *author*, *article type*. Also limit by newspaper and date.
- Publication – Browse a specific day's paper, or front pages of successive days.

Operators

- AND – *gold and California* – looks for both terms within entire article
- OR – *Tammany Hall or Boss Tweed* – looks for either term within entire article
- AND NOT – *Mississippi and not river* – looks for terms to not both occur within entire article
- WITHIN – *constitution w/10 amend* – searches within specified number of words (1 to 50)

Phrases

- System searches two words together as a phrase
i.e. – *Federal Reserve* finds *Federal Reserve*
- Use quotes for phrase searching of 3 or more words
i.e. – “*as you like it*” finds *as you like it*
- 3+ word phrase with no quotes – system uses an implied AND between words
i.e. – *boston tea party* will be searched as *boston AND tea AND party*

Word Variants

- Truncation * i.e. – *amend** – will find *amend, amended, amendment, amending, etc.*
- Wildcards ? i.e. – *Gettysb?rg* – will find *Gettysburg, Gettysberg*
- Plurals/singulars found automatically i.e. – *woman* will find *women – children* will find *child*
- British spelling and other variants not automatically found. Search for both terms.
i.e. – (*labor or labour*)

Author Field

- Within operator is implied i.e. – *Mark Twain* and *Twain, Mark* will find the same thing

Article Types

- Article, Birth notice, Classified ad, Comic, Display ad, Editorial article, Editorial cartoon, Fire loss, Front page, Legal notice, Letter, Lottery numbers, Marriage, Obituary, Photo Standalone, Real estate transaction, Review, Stock quote, Table of contents, Weather

Display Options

- Citation – bibliographic details for the article
- Article Image – article displayed in PDF format using Adobe Reader
- Page Map – the article appears in context of the entire page, displays in special format to allow browsing through the issue page by page, or jumping to articles found on a page.
- Page Image – the article appears in context of the entire page it is from, displays in PDF format to allow for printing, enlarging, saving, etc.

Delivery Options

- Print – Use ProQuest Print button. Advanced Adobe Reader print tools are also available.
- Email – Available for article images. You can deliver the citation (plain text) or the image (formatted attachment). Formatted citations are available.
- Marked List – Email article images and/or citations in a batch. Export to bibliographic software. Download a Research Summary of links to articles, searches and newspaper

ProQuest Professional Education Sample Questions:

- How can I include a discussion of bioterrorism in the classroom for social studies and science?
- What is the latest issue of Education Week available? List the articles in that issue.
- What tools are available for evaluating writing skills?
- What are the most current issues on standards based instruction?
- What is the effect of sports participation on student achievement?
- What are some methods for increasing science fair participation?
- What recent statistics are available for the use of technology within schools?
- How have online microscopes been integrated into science classes?
- What are some resources to address bullying at school?

How can I help parents understand Rubrics?

Ethnic NewsWatch

- **Warsaw Pact**
Cond* Rice (* is truncation –searches Condi or Condoleezza)
System always looks for two words directly adjacent to each other.
- **“Persian Gulf War”**
Best way to search for a three+ word phrase
- **hate crimes w/25 jew*** (* is truncation – will find jew or jewish)
w/25 searches for one word/phrase within 25 words of the second term/phrase
- **voting and Hispanic**
AND searches for term/terms within 250 words of each other
- **title(Islam)**
System searches the search term(s) in the title/headline of the article
- **source(Middle East Policy)**
so(Russian Life) and Putin
System will search just the source field (publication) for the word(s) in parentheses.
- **Smart Search** – Type racism in search box. Click Racism & Discrimination in Smart Search box, Blacks, show results and then click **Alert**
- **Within Connector**
You can use any number from 1 up to 999. The number corresponds to the number of words between search terms...e.g. – w/1 – w/25 – w/60 – w/999
- **The Symbol * is for truncation**
this will “open-end” a search term
e.g. – terror* will find the words: terror – terrorist – terrorized – terrorism - etc.
- **The system will look for both singular and/or plural forms of search terms:**
career will also find careers / children will also find child
- **The system will automatically look for both English as well as British spellings:**
labor will also find labour / color will also find colour
